

Camera Systems - Pan Tilt Zoom with Night Vision

With the advancement of technology, camera systems are quickly becoming a practical and essential tool for disaster management. Prospect Environmental can provide a turn-key solution for such a system.

The prospect.rmtek.com.au site provides authorised users with login details to view sites anywhere at anytime, even from a phone.

So when you're in the middle of an event you can trust what your being told by simply logging in and seeing for yourself.

The camera monitoring system installed by Prospect Environmental features:

- Pan, Tilt, Zoom (PTZ) camera
- Next G connection
- Web access, with secure login
- Ability to include water level sensors and display data
- Night Vision, with PTZ
- Power saving options to ensure the system is active when you most need it
- Site inspection and servicing
